

# Human Centered Computing

Shobha Chengalur-Smith  
University at Albany - SUNY

# Evolution of OSS

- Challenges to future growth
- Participation, rather than Consumption vs. Creation
  - Organizational use
  - Passive users

# Sustainability

- How can the OS community leverage organizational practices such as
  - Transparent use of upstream projects
  - Hybrid OS projects

# Growth

- If a product is OS and the user does not know it, does it make a sound?
  - Escalate to habitual use and loyalty
  - Branding?
